The PG Department of Mathematics, in association with IQAC, organised Alumni Connect #17 on 16 September 2026 at Seminar Hall 326.

The programme provided a meaningful academic platform for alumni and students to reconnect, exchange experiences and explore the practical value of mathematical thinking.

The programme began with Qirat by *Mohammed Aabith, I BCA 'A'*, followed by the Welcome Address by *Mr. A. Ansari, Alumni Coordinator, Department of Mathematics*.

Ms. Thenmozhi, II M.Sc. Mathematics, introduced the distinguished Resource Person, *Mr. R. Saravanan, Graduate Teacher, Government High School, Mookandapalli, Krishnagiri District*.

The guest was honoured by the Principal, *Dr. M. S. Mohamed Jaabir*, as a mark of respect and appreciation.

The resource session focused on *"What Mathematics Really Trains You to Do"*, highlighting six essential thinking skills developed through mathematics: *identifying the unknown, using available information, making assumptions, testing solutions, correcting mistakes, and reaching conclusions logically. The session connected mathematical problem-solving with practical decision-making and encouraged students to approach challenges with clarity and confidence*.

The programme concluded with meaningful interaction between the resource person, alumni and students, creating an atmosphere of learning, reflection and renewed academic connection.

Alumni Connect #17 was a purposeful bridge between academic learning and lived experience—reminding us that *Mathematics is not merely about finding answers, but about learning how to think*.

The department sincerely thanks the Director, Principal, Vice Principal & IQAC Coordinator, and Dean for their guidance and support, and extends special thanks to the Alumnus Mr. R.Saravanan for sharing his valuable professional experience.

The programme concluded with the Vote of Thanks and National Anthem.

Thank you.

Dr V.Muralidhar
