ABOUT TECHNICAL SYMPOSIUM:

The Department of Business Administration successfully organized an industrial visit to TPRS Glass Industry, Pondicherry, on 4th February 2026 with the participation of 100 enthusiastic BBA students. The visit provided valuable real-time exposure to Industrial operations and management practices.

Students gained first-hand knowledge about the glass manufacturing process, quality control measures, production planning, inventory handling, and safety standards followed in the industry. The industry experts explained the organizational structure, roles of management, and marketing strategies adopted in the competitive glass market.

The interactive session with the plant officials helped students relate theoretical Concepts learned in the classroom with practical industrial applications. The visit significantly enhanced students' understanding of operations management and industrial discipline.

Outcome:

The industrial visit was highly informative and inspiring, enriching the students' academic learning and motivating them towards career-oriented thinking.

We thank the management and staff of TPRS Glass Industry for their support and cooperation in making this visit a grand success.
